Wild Cat Stabilizer

IFOOTAGE™ exclusively made for Rollei

www.rollei.com

Rollei since 1920

Quick Release Base
Allow to adjust the front, back, left and right balance.

Locked Fast
Adopt the unique iFootage 3-legs fast locking system.

Handle
The carbon fiber handle can be extended by matching accessories. The covered foam rubber makes the handle more soft and flexible and works also as a sound absorption and heat insulation. Smoothly rotate in all directions.

- The Wild Cat Stabilizer is a Mini Stabilizer which is made for Photography Hobbyist and Professional. It's with new structure, choice materials and easy to take, make sure of better stability and longer time for hand held. It is the real carry-on stabilizer.
- The counterweights can be used as 3-legs. The upper structure is used for the Manfrotto head. The middle handle can be moved in any direction.
- Anti-skid on the counterweight for a secure footing
- The main part is made of water-proof, light-, heat- and corrosion-resistant carbon. The CNC processing with high quality anodized black finish increases the durability and improves the rigidity of the surface abrasion resistance.

Carbon

Base
The 3 groups counter weight for the base enhance the stability and balance. It can also be used as a tripod.

Counterweight
"Wild Cat" Standard counterweight includes 3 groups: 148 g, 47 g and 35 g.

Mark
The precise mark on the tube make make further installations quickly and accurately possible. Be more stable and safe with the convenient button locking system.
